

Name _____

Next Steps for Service Project to Combat Bias

Last meeting we had just begun to talk about the pros and cons of the different projects we could take on to combat bias. The possibilities include:

- Murals
- Videos
- Books
- Working with kids
- Posters

Circle the project you think would be most meaningful and then answer the following questions:

1. Discuss the main reason you like this project.
2. Explain why you think this project would be an effective way to raise awareness about bias and change peoples' behavior. (For example, if you want to do a video, explain why that is the best medium / way to get across our ideas.)
3. Briefly say what would be fun about this project?
4. Briefly say what would be difficult or challenging about this project?
5. On the back of this sheet please do your best to describe what the project would look like, including the steps it would take to create it. Of course, in the end we will work together as a group to hash out what the final project will look like. But right now please give your vision!
